MyTwin & MyCity

Design with meticulous attention to detail

Design with meticulous attention to detail

The new MyTwin and MyCity handsprays are emblematic of pure uncluttered design paired with ultra sleek contours. Modern and on-trend, they are perfect for lovers of unconventional design and premium quality in the bathroom.

Designer Andreas Dimitriadis, platinumdesign, lavished attention on every detail of their development. For instance, the two-part design of the handle section is unmarred by any join, so the new handsprays rest perfectly in the hand.

Range diversity

Choose between two designs and six different cap finishes: the rectangular MyCity handsprays are available with Chrome, Chrome/Mattchrome, Chrome/Nightblack, Chrome/Glacierwhite and Chrome/Pureorange finishes. An additional Swisscross motif is available for the round MyTwin handspray.

2 forms: round or angled

6 different colors: Chrome, Chrome/Nightblack,
Chrome/Glacierwhite, Chrome/Pureorange,
Chrome/Mattchrome, Chrome/Swisscross

2 dimensions: 100 mm with 1 spray feature
120 mm with 3 spray features

Convenience with a high pleasure factor

Laufen hand sprays not only look smart, they are smart. The 100 mm sprays feature the «RainSpray» option. The 120 mm sprays are additionally equipped with a «MassageSpray» and a combination of both spray types, the «MixedSpray». A press of the SmartSelect button switches conveniently between a gentle rain shower and vigorous massage spray.

The integrated air mix enhances the soft pleasant showering experience. Thanks to RubiClean limescale residues rub off quickly and easily to ensure many years of unadulterated showering pleasure.

RubiClean:

Thanks to RubiClean you are able to rub off limescale residues quickly and easily

Technically savvy

However Laufen's modern hand spray technology offers even more. All sprays are supplied with the «Ecochoice» limiter. It limits the water rate to 5.7 l/min and therefore bears the «A» energy label. Anyone preferring a higher water flow of 11.3 l/min, can remove the controller manually.

Special attention was paid to the choice of materials used. All water-conveying parts are made of quality materials that comply with drinking water ordinance requirements. Thanks to the smart technology inside the hand sprays do not heat up, and thus offer perfect protection against scalding.

EcoChoice: All sprays are supplied with the EcoChoice limiter, which limits the flow rate
